# GET THE LOOK: NAOMI WATTS DEWY, FLAWLESS OSCARS SKIN

Posted on March 3, 2014 by Roxy — No Comments ↓

**Naomi Watts** stunned on the **Oscars** red carpet and her best accessory was....her skin. **Intraceuticals** Film and Television liason, **Samantha MarQuard**, gave Naomi her gorgeous glow to compliment her chic **Calvin Klein Collection** and **Bvlgari** look.

And actually, I got to see this treatment up close and first hand because as soon as Samantha was finished with Naomi yesterday morning, she headed over to my house to give me the Oscars treatment as well. So fun! And here is what she did for Watts, using all **Intraceuticals** products:

"I gave Naomi the Rejuvenate facial for hydration, lifting and tightening. It targets premature aging, fine lines and wrinkles, sagging and loss of contour.

First, I started with Intraceuticals oxygen treatment on Naomi's clean face. I used hyperbaric oxygen that assists in delivering our proprietary serum technology.

Then, I applied Atoxylene + Rejuvenate Serums on her face. The Atoxylene serum helps to soften fine lines and smooth out and relax the appearance of wrinkles. The Rejuvenate serum is our maximum hydrating serum to create volume and lift in the skin. Some people call it a natural face lift.

Then, I followed by our signature 3 step Hyaluronic layering of Rejuvenate daily serum, hydration gel and moisture binding cream. And voila, skins that glows!"

Who do you think had the best skin on the red carpet?
